

MATHCAL – One math challenge every week

Résumé

Loving Maths ? Download MathCal, the first mathematical game with one awesome challenge by week! Trigonometry, geometry, algebra, with MathCal, got your thinking caps on !

Description

Loving Maths ? Download MathCal, the first mathematical game with one awesome challenge by week ! You've got 7 days to find the solution, alone or with a little help from your friends. Between two dares, play & train with our Math Application

Trigonometry, geometry, algebra, with MathCal, got your thinking caps on ! The "Presses universitaires de Strasbourg", with the support of well-known mathematicians, propose you to confront this mathematical challenge head on. Nothing more simple, connect to the application, and you will receive every week a notification announcing you the new challenge. You are not alone ! You could ask a helping friend, and compare your results with all the MathCal community. A stalk of logic, cerebral training, and mathematical spirit, it is all that you need to be the best in MathCal.

Train yourself, consult the indications, and progress in this real math competition. Try to be the leader of the world players competition.

Doing Math with fun, this is the challenge of MathCal !
